Historical Sites and Monuments

WE LOVE WHERE WE LIVE ☺

The school was founded in 2004. During first year there were only 43 students attending to school later the number has increased

* CLASSROOMS:

In a class there are maximum 30 students. There are 15 desks and 30. There is a smartboard, a white board and a green board. There is a bookcase behind the teacher table in each classroom. There are different types of beautiful books in the bookcase.

PREP CLASS:

We study Maths 3 classes a week, Turkish 4 classes a week, German 4 classes a week, Physical Education 2 classes a week and **English 20 classes a week.**

It seems to be very boring but it is really very entertaining. We sometimes watch movies and listen to music to improve our listening abilities. We read English books as well. We always speak English during the lesson. It's forbidden to speak Turkish. The teacher gives a topic and then students write something about that topic. Believe us or not we are having fun so much while learning English.

It's also a good opportunity to take part in this project to improve our English.

OUR SCHOOL

In our school building there are two towers, with two different kinds of schools:
High School of Languages and Institute for Tourism.
The school time is organized from Monday to Friday from 8:10 to 14:10.

SUBJECTS

In our school, , Artemisia Gentileschi, you can study four languages: English, Spanish, French and German, but in our class we study English, Spanish and French.

ŞULE YILDIZ

There are many Syrian refugees in Turkey now. They live in the camps and they are afforded by Turkish government and some international funds. Some of them don't want to live at camps and prefer living in the city centres. They usually beg for money or work with low salaries. Some of them want to go to Europe through Aegean Sea. People who want to make profit get their money (steal their dreams) and transport them by boats. Unfortunately, many refugees including babies and women drowned in the sea because they were travelling illegally by weak boats. It's really sad.
