

Liceo artistico “P. Candiani” di Busto Arsizio

The Liceo Artistico offers, like all high schools, a global basic preparation and preparatory to all the paths of higher education and university.

The in-depth study is dedicated to the study of aesthetic phenomena and artistic practice.

The educational path therefore favors the acquisition of specific methods in research and artistic production and the mastery of languages and related techniques.

The study of artistic heritage in its historical / cultural context as well as a value for today's society plays a central role in the study program.

The preparation, therefore, allows access to higher education in the fields dedicated specifically to art and its languages, in contemporary contexts. The new Artistic Lyceum foresees a common two-year course and a three-year course of direction.

In our high school students can choose between the following addresses:

- Figurative arts
- Graphics
- Design
- Architecture and Environment
- Audiovisual and Multimedia
- Set Design

- [Liceo Artistico](#)
- [Liceo Coreutico](#)
- [Liceo Musicale](#)

It is also a :

Structure

The historical seat of the Artistic Lyceum, dating back to 1963, was extended in 2012 by the Province of Varese. The building consists of 4 floors above ground, for a total number of 50 classrooms, 4 computer labs, a chemistry laboratory, a scenographic and a photographic laboratory, a library of over mq. 200, two dance halls, two video rooms, the Main Hall with 210 seats, indoor refreshment service as well as other spaces and special classrooms that make our High School one of the most complete structures of our region.
